EXAMINER:

INTERNATIONAL APPLICATION NO: PCT/DE99/03815

INTERNATIONAL FILING DATE: 01 December 1999

INVENTION: METHOD FOR TRANSMITTING DATA IN A RADIO
COMMUNICATION SYSTEM

Assistant Commissioner for Patents,
Washington, D.C. 20231

INFORMATION DISCLOSURE STATEMENT

In accordance with the provisions of 37 CFR §1.56, Applicants requests that citation and examination of the references listed on Form PTO-1449, copies of which are enclosed herewith in accordance with 37 CFR §1.98, be made during the course of examination of the above-identified application for United States Patent.

Document AN, European EP 1 006 692 A1 relates to a data transmission method combining several services for transmitting data of services according to a combination of formats over physical channels, whereby a combination of currently used formats is determined from a total data rate and partial information.

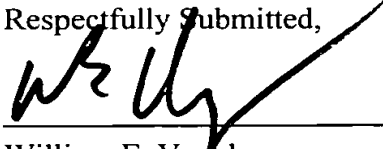

Document AO, German DE 198 55 194 A1 relates to a data transmission method combining several services for determining a combination of currently used transmission formats of services and dividing services in at least two classes, having in-band or separate signaling, according to a service specific data rate dynamic.

Document AP, German DE 197 47 370 C1 relates to data transmission method combining several services for determining a combination of currently used transmission formats of services and dividing services in at least two classes, having in-band or separate signaling, according to a service specific data rate dynamic.

Applicants respectfully submit that the claimed invention is distinguishable and non-obvious over the enclosed references, taken singly or in combination.

Accordingly, early consideration and allowance of the application,
including the claims, are hereby requested.

Respectfully Submitted,

(Reg. No. 39,056)
